Toshiba recommends Windows 8.1

## ● ADAPTS AS OFTEN AS YOU DO

With a powerful laptop and high-performance tablet in one device, the 29.5 cm (11.6") Portégé Z10t-A Ultrabook™ from Toshiba adapts to any professional's changing needs. It's made for business, so you can use it as a laptop to type emails on the way to a meeting, and then click into tablet mode to make notes when you get there. The latest Intel Core processors for Ultrabook™ will give you all the power you need to cut through your workload, in or out the office. And because it runs Windows 8 Pro, you can rely on an intuitive experience, whether you're using the touchscreen, touchpad or keyboard. All of these flexible functions can be found in one travel-friendly device, which comes with Accupoint navigation and the optional pen to help you work more precisely. And as the Z10t-A also has the latest high-performance components and a full set of ports, it can adapt as often as you do.

\* Spill-resistant keyboards help protect your data from accidental spills up to 30 ml, allowing you 3 minutes shut down time to save your data.

\*\* Pen included with selected models only.

With the Toshiba On-Site Repair Service, an authorised engineer will come to you by the end of the next business day to fix your laptop at home or at work.

### WARRANTY EXTENSION

Extend the Toshiba standard warranty of your product before it expires to up to 4 years international warranty for your additional reassurance.

TEG\_EN\_Portégé\_Z10t-A\_DataS 2013. Microsoft, Windows and Windows 8 are either registered trademarks or trademarks of Microsoft Corporation in the United States and/or other countries. All trademarks are acknowledged. Product specifications, configurations, prices and system component/options availability are all subject to change without notice. Product design specifications and colours are subject to change without notice and may vary from those shown. Errors and omissions excepted.

CPU performance may vary from specifications under certain conditions such as the use of battery instead of AC power, certain external peripherals, certain multimedia applications or network connections, complex modeling software and in areas with low air pressure at high altitude (1,000 metres above sea level) and/or certain temperatures. CPU performance may also vary from specifications due to design configuration. Under some conditions, your computer may automatically shut down as a normal protective measure. To avoid risk of lost data, please make periodic back-up copies. For optimum performance, use your computer only under recommended conditions. Please read detailed restrictions in the product resource guide, visit the Toshiba web site: [www.computers.toshiba-europe.com](http://www.computers.toshiba-europe.com) and/or contact Toshiba Technical Support. - Graphics processor unit (GPU) performance may vary depending on product model, design configuration, applications, power management settings and features utilized. - Part of the main system memory may be used by the graphics system and therefore reduce the amount of main system memory available. - For PCs configured with 4 GB of system memory, the full system memory space for computing activities will be considerably less and will vary by model and system configuration. - For information about upgrading your system memory please refer to the user manual or contact your local Toshiba service provider. - One GB means one billion bytes, accessible capacity may be less. - Wired and wireless communication capabilities to be applied in countries where approved. - Battery life may vary depending on applications, power management settings and features utilized. Recharge time varies depending on usage. Battery may not charge while computer is consuming full power. After a period of time, the battery will lose its ability to perform at maximum capacity and will need to be replaced. This is normal for all batteries. To purchase a new battery pack, see your accessories information that shipped with your computer or visit the Toshiba web site at [www.computers.toshiba-europe.com](http://www.computers.toshiba-europe.com). - Small bright dots may appear on your TFT display when you turn on your PC. Your display contains an extremely large number of thin-film transistors (TFT) and is manufactured using high-precision technology. Any small bright dots that appear on your display are an intrinsic characteristic of the TFT manufacturing technology. - Weight may vary depending on product configuration, vendor components, manufacturing variability and options selected. - Please check your system specifications to ensure optimal results. - Certain notebook chassis are designed to accommodate all possible configurations for an entire product series. Your selected model may not have all of the features and specifications corresponding to all of the icons or switches shown on the notebook chassis. - Performance may vary depending on product model, configuration, video content/format/settings as well as the performance variations of individual hardware components. Results were achieved on select models and configurations tested by Toshiba at the time of publication.
